

EPOS Advanced Course

Vienna, Austria: 27-28 June 2024

DDH and Hip Ultrasound

Highlights

- Features basic knowledge and natural history
- Neonatal ultrasound for diagnosis
- Screening and treatment monitoring
- Up to date conservative and surgical treatment throughout growth
- Detailed technical notes on surgical techniques

Methods of education

- Theoretical Lectures
- Clinical case discussions
- Workshops on hip ultrasound, femoral and pelvic osteotomies, osteotomy planning tools

Welcome

Renata
Pospischill

Thomas Wirth

Sebastian Farr

Dear Esteemed Colleagues and Friends,

It is with great enthusiasm that we extend an invitation to you for the inaugural EPOS BAT Advanced Course, which will focus on neonatal hip ultrasound, and the screening and treatment of the Developmental Dysplasia of the Hip (DDH). This event is scheduled to take place on June 27th and 28th, 2024, in the beautiful city of Vienna, Austria.

The long-term impacts of DDH as a childhood disease can be profound, carrying significant personal, societal, and economic implications. Ensuring optimal treatment for all individuals necessitates the expertise of well-trained orthopaedic surgeons.

A key objective of the European Paediatric Orthopaedic Society (EPOS) is to lead the way in paediatric orthopaedic education throughout Europe.

This advanced course will feature a comprehensive program including theoretical lectures, presentations on surgical techniques in DDH, interactive case discussions, and workshops focusing on hip ultrasound techniques. Additionally, participants will engage in hands-on sessions using sawbones. Our distinguished faculty, comprised of internationally renowned experts from across Europe, will dedicate 1.5 days to sharing their latest insights and expertise.

Your active participation and engagement are essential to the success of this event, and we eagerly anticipate your attendance.

Warm regards,

Renata Pospischill
Course Co-Chair

Thomas Wirth
Course Co-Chair

Sebastian Farr
EPOS Educational
Committee Chairman
2022-2025

Program

Thursday 27 June

Schedule	Topic	Faculty
----------	-------	---------

07:00 Registration

Basic Knowledge & Developmental Dysplasia of the Hip (DDH)

Moderators: R. Sakkers, M. Inan

08:00	Pathophysiology & post-partal anatomic abnormalities of DDH	H. Ömeroğlu
08:15	The natural history of DDH	A. Roposch
08:30	The ultrasonographic appearance of the normal neonatal hip and in DDH	M. De Pellegrin
08:45	Basic principles of hip ultrasonography by the Graf's method	R. Pospischill
09:00	Measurement and classification of DDH according to Graf	B. Pruszczyński
09:15	Other ultrasonographic techniques of neonatal hip and DDH assessment (Terjesen, Haarke, Suzuki)	J. Czubak
09:30	Discussion	

09:40 Coffee Break

Basic Knowledge & Developmental Dysplasia of the Hip (DDH)

Moderators: A. Roposch, B. Pruszczyński

10:05	Radiographic measurements for DDH: normal values, grey zone, pathologic values	R. Pospischill
10:15	Radiographic appearance of the normal and pathological hip throughout growth	C. Alves
10:25	The role of the proximal femur in DDH throughout growth	T. Wirth
10:40	Discussion	

11:00 Industry-Sponsored Workshops - Round 1

12:00 Lunch break

Program

Thursday 27 June

Schedule Topic

Faculty

Role of Hip Ultrasound in the Treatment of DDH before 3 months of age

Moderators: T. Wirth, M. De Pellegrin

13:00	Selective neonatal ultrasound screening – does it work	R. Sakkers
13:10	General neonatal ultrasound screening – does it work	H. Ömeroğlu
13:20	Update on neonatal hip ultrasound screening – the global perspective	M. de Pellegrin
13:30	Discussion	
13:40	Treatment of early diagnosed DDH using and guided by Graf's method	R. Pospischill
13:50	The Graf type IIa hip: needs treatment instead of observation	C. Alves
14:00	The Graf type IIa hip: needs observation instead of treatment	Ralph Sakkers
14:10	Imaging methods to prove concentric and stable reduction in DDH	M. Inan
14:20	Discussion	
14:30	Case presentations	
15:00	Coffee break	

Program

Thursday 27 June

Schedule	Topic	Faculty
Treatment of DDH at different ages after 3 months of age and before school age		
Moderators: R. Pospischill, J. Czubak		
15:25	Closed reduction	M. De Pellegrin
15:35	Arthroscopically assisted reduction	T. Wirth
15:45	Open reduction	C.Alves
15:55	Open reduction with concomitant osteotomies (acetabuloplasty / femoral (shortening) osteotomy)	M. Inan
16:10	Indications for different acetabuloplasty types in DDH (Pemberton, Dega)	A. Roposch
16:20	Indications for Salter's innominate osteotomy	B. Pruszczyński
16:30	Criteria for timing of acetabular interventions	R. Sakkars
16:40	Complications of closed and open reduction <i>Redislocation</i> <i>Femoral head necrosis</i>	H. Ömeroğlu
16:50	Discussion	
17:00	Case presentations	
17:30	Industry-Sponsored Workshops - Round 2	
18:30	End of the day	

Program

Friday 28 June

Schedule Topic

Faculty

Technical Issues in Surgical Treatment of DDH

Moderators: H. Ömeroğlu, C. Alves

08:00	Tips and tricks for open reduction of DDH	T. Wirth
08:10	Tips and tricks for a successful Pemberton or Dega osteotomy	J. Czubak
08:20	Tips and tricks for performing Salter's osteotomy correctly	M. Inan
08:30	Tips and tricks for optimising triple and periacetabular osteotomies	J. Czubak
08:40	Tips and tricks to facilitate proximal femoral osteotomy	A. Roposch
09:00	Discussion	

09:10 Coffee Break

09:30 **Industry-Sponsored Workshops - Round 3**

Treatment of DDH in children older than 6 years

Moderators: R. Pospischill, T.Wirth

10:30	Persistent DDH between 6 and 10 years of age – what to do?	C. Alves
10:40	The missed and very late diagnosed high hip dislocation	A. Roposch
11:00	DDH in adolescence – residual acetabular dysplasia or new and separate condition?	B. Pruszczynski
11:10	Role of triple pelvic osteotomy in DDH of school age and adolescence	T. Wirth
11:20	Role of periacetabular osteotomy in DDH in school age and adolescence	J. Czubak
11:30	DDH treatment principles in (early) adulthood	M. Inan
11:40	Long-term results of untreated and treated DDH	R. Sakkers
11:50	Discussion	
12:00	Case presentations	

12:30 Adjourn

Information

Course fees (incl. 10% VAT)

Early registration fees*
(valid until 2nd of June 23:59):

Participants
EUR 450.00

EPOS members**
EUR 350.00

Residents**
EUR 300.00

Late registration fees
(valid as of 3rd of June. No registration possible onsite!):

Participants
EUR 550.00

EPOS members**
EUR 450.00

Residents**
EUR 400.00

Course language

English – no translation

CME Accreditation

The course has been accredited by the European Accreditation Council for Continuing Medical Education (EACCME®) with 9.5 European CME credits (ECMEC®s). Each medical specialist should claim only those hours of credit that he/she actually spent in the educational activity.

Opening hours

Wednesday 26th of June 16:00-18:00

Pre-registration (optional)

Thursday 27th June 07:00-18:30

Friday 28th June 07:30-12:30
