

Turkish Spine Society

Basic Diploma

(Equivalent to EUROSPINE Diploma)

6 modules
e-Learning lessons
Hands-on sessions
Constructed case discussion

Course 1
Module 1,2,3
Istanbul, 5-7 January 2024

Değerli meslektaşlarım,

Turk Omurga Derneği'nin yaklaşık 2015 yılından beri devam eden ve EUROSPINE (Spine Society of Europe) ile akredite olan "Temel Diploma Modülleri" ni bu sene format değiştirerek yeniden gerçekleştiriyoruz. Pandeminin getirdiği sanal toplantı alışkanlığı her ne kadar yüz yüze eğitimin yerine geçmese de yerini yavaş yavaş eski tip toplantılar bırakmaktadır. Ancak bu alışkanlığın getirdiği e-learning formatı eğitsimsel faaliyetleri içinde zaman ve mekan avantajı sunan başka bir boyuta getirmiştir. Hibrid toplantı kavramı, içeriği yoğun olan kurslarda eğitimin interaktif parçasını ön plana çıkararak daha kullanışlı bir formattır. Bu tarz hibrid toplantılarında, katılımcı konsantrasyonunun yoğun olması gereken ezber-yüklü sunumları web üzerinden izleyebilmekte ve sunumun gerekli parçalarını tekrar ederek kafasında daha az soru ile sunumun içeriğini alabilmektedir. Bu sene yapacağımız hibrid toplantıda 70 (6 modül için) adet elektronik öğrenme dersi sizlere sunulmaktadır. Bununla birlikte "tutor" lar tarafından yönetilecek küçük masa toplantılarıyla birçok yapılandırılmış olguya toplantıının yüz-yüze kısmında sunacağız. Bununla birlikte tüm modüller içine dağıtılmış dört adet "atölye" oturumu olacak.

Kursumuzun genel formatı ile ilgili kısaca bilgi vermek gerekirse; bu eğitim faaliyeti temelde 6 modülden oluşmaktadır. Altı modül genellikle iki toplantı şeklinde her yıl yapılmaktadır. Altı modülü aynı yıl içinde tamama ma zorunluluğu yoktur. Eski modüllerden eksikleri olanlar yeni formattaki modülleri alarak eksiklerini tamamlayabilirler. Bu pozisyondaki katılımcıların geçen sene müfredatımıza eklenen 6. Modülü'de tamamlamaları gerekmektedir. Altı modülü tamamlayan katılımcıların isimleri Eurospine sekretaryasına iletilmektedir. Bu aşamadan sonra katılımcılar Eurospine ile iletişime geçerek diplomalarını alabilirler. Omurga hastalıkları ile uğraşan herhangi bir sağlık sunucusu bu programa katılabilir. Asistanlığın son yılındaki "uzmanlık öğrencilerinden" başlayarak uzmanlığının herhangi bir yılında olan hekimler öğrenmek ya da bilgilerini güncellemek için Diploma Modüllerinden faydalanabilirler.

Bu yeni formatı ile içeriği daha geniş daha interaktif ve dolayısıyla daha fazla öğreten bir kurs sunacağımıza inanıyorum. Kursların yine her türlü lojistiğin daha iyi sağlandığı İstanbul'da gerçekleştirileceğini belirtmek isterim. İlk kurs için 2024 Ocakında İstanbul'da buluşmak dileğiyle...

Dear colleagues

We are reorganizing the "Basic Diploma Modules" of the Turkish Spine Society, which has been going on since 2015 and accredited with EUROSPINE (Spine Society of Europe), by changing the format this year. Although the virtual meeting habit brought by the pandemic does not replace face-to-face education, it is gradually being replaced by old-fashion meetings. However, the e-learning format brought by this habit has brought educational activities to another dimension that offers time and space advantages. The concept of hybrid meetings is a more useful format that emphasizes the interactive part of training in content-intensive courses. In such hybrid meetings, the participant can watch memorization-intensive presentations that require intense concentration over the web, and by repeating the necessary parts of the presentation, he/she can get the content of the presentation with fewer questions in his/her mind. In this year's hybrid meeting will include 70 e-learning lessons (for 6 modules). In addition, we will present many structured cases in the face-to-face part of the meeting in small table discussions led by "tutors".

To briefly describe the general format of our course, this training activity basically consists of 6 modules. The six modules are usually held in two meetings each year. There is no obligation to complete all six modules in the same year. The names of the participants who have completed six modules are forwarded to the Eurospine Secretariat. Participants can then contact Eurospine to receive their diplomas. With this new format, I believe that we will offer a course with a wider content, more interactive and therefore more teaching. I would like to mention that the courses will be held in Istanbul, where all kinds of logistics are better provided. Hope to meet you in Istanbul in January 2024 for the first course...

When & Venue	Course I (Module 1,2,3) 5-7 January 2024 Yeniüzyıl Üniversitesi Özel Gaziosmanpaşa Hastanesi, İstanbul		
Language	English/Turkish		
Dress	Smart casual		
Registration fee (For each module)	TSS member	5000 TRY	
	Non-member (local)	6000 TRY	
	Non-member (foreign)	300 EUR	
Important note	<p>You need to register for the course online. On-line registration page at www.turkomurga.org.tr (you will need to upload the bank receipt of your course fee to this page).</p>		
	<p>Deadline for registration is December 1, 2023</p> <p>Completion of eLearning modules and attendance to the virtual live session is mandatory.</p> <p>A computer (Mac/PC) or tablet (Android/Mac) and stable internet connection are required to access the eLearning content and virtual live sessions.</p> <p>The course evaluation is mandatory to obtain certificate.</p>		
Target audience	Senior trainees and trained surgeons, who are planning a career in spine surgery.		
Max. attendees	40 delegates (per option)		
Accommodation & Further questions	dernek@turkomurga.org.tr		

Kursun temel gereklilikleri

Kurs öncesinde elektronik öğrenme materyallerinin katılımcılar tarafından tamamlanması zorunludur

Kursa devam etme zorunluluğu vardır

Kurs başlama saatinden 10' önce kurs alanında olmanız gerekmektedir

İlk kahve arasını aşan gecikmelerde modül tamamlanmamış kabul edilir

Basic requirements of the course

Electronic learning materials must be completed by the participants prior to the course

Attendance is compulsory

You must be in the course area 10' before the course start time

Module is considered incomplete if delayed beyond the first coffee break

Turkish Spine Society Basic Diploma

e-learning contents		
Duration	Topic	Presenter
	Back pain	
15'	Clinical examination of spine	Mahir Topaloğlu
24'	Imaging of spine in low back pain	Murat Korkmaz
15'	Different perspectives on low back pain	Mahir Topaloğlu
18'	Rehabilitation of low back pain	Rana Terlemez
16'	Red flags in lumbar pain	Fatih Keskin
21'	Differential diagnosis of inflammatory diseases in lower lumbar region pain	Turgut Akgül
20'	Spinal cord monitoring; understanding the screen	Pınar Yalınay Dikmen
	Consolidation questions	
	Fundamentals & clinical research	
29'	Biomechanics - In vitro models	Hakan Bozkuş
	Finite element models	Hakan Bozkuş
17'	Biology of the lumbar intervertebral disc	Alev Cumbul
	Cellular and molecular research	Alev Cumbul
15'	Epidemiology and economics	Okan Özkunt
19'	Principles of clinical research	Tuna Pehlivanoğlu
	Consolidation questions	

Program
