

International Basic Neurosurgery Course IBNC 2020

Term III, Course I, "Neurotrauma, Functional Neurosurgery"

Yasin Temel is a neurosurgeon with a strong interest in translational Neuroscience. He received his MD degree in 2001 and his PhD degree in 2007, both at Maastricht University. He finished his Neurosurgery training in 2010. His clinical activities include general Neurosurgery, with special emphasis on Functional Neurosurgery and Skull Base surgery. His research activities are directly linked to these two topics. The first line of research focuses on improving existing neuromodulatory treatments and developing novel therapies for neurodegenerative disorders. The second line of research aims to develop biological markers predicting the disease course and surgical outcome of skull base tumors such as chordomas and vestibular schwannomas.

ORGANIZATION COMMITTEE

President:
Hakan Emmez

Vice President:
Ersay Kocabıçak
